Nasiha Sara

Junior Architect | 3D Visualizer | Revit Architect

Dubai, UAE | +971 58 262 4491 | naziyashihab6@gmail.com | Portfolio: nasiha-arc.vercel.app

PROFESSIONAL SUMMARY

Detail-oriented Junior Architect, 3D Visualizer, and Revit Architect with hands-on experience in architectural drafting, Building Information Modeling (BIM), 3D modeling, and photorealistic rendering. Skilled in translating design concepts into accurate building models and immersive visualizations using industry-standard BIM and visualization software. Experienced in interior design and architectural projects, with strong spatial planning, material selection, and client presentation skills. Seeking to bring technical precision and design creativity to a growing architecture or design studio.

CORE SKILLS

BIM & Architectural Drafting: Autodesk Revit Architecture, Building Information Modeling (BIM), 2D/3D Modeling, Construction Documentation, Architectural Drafting

3D Modeling & Rendering: AutoCAD, 3ds Max, V-Ray Rendering, Corona Renderer, Lumion, SketchUp, Adobe Photoshop

Core Competencies: Spatial Planning, Space Optimization, Material Selection, Client Presentation, Project Coordination, Team Collaboration

PROFESSIONAL EXPERIENCE

Interior Designer, Iman Interior Design and Furniture, Kumbla, Kasaragod, India

Jan 2026 - Aug 2026

- Designed 25+ high-quality residential interiors, establishing distinct design concepts, functional layouts, and bespoke material palettes tailored to individual client needs.
- Produced 60+ photorealistic renders using Revit, 3ds Max, and Corona Renderer to accurately communicate spatial volume, material finishes, and lighting aesthetics.
- Coordinated with 10+ contractors, furniture fabricators, and vendors to oversee the transition from design concepts to on-site execution.
- Optimized spatial layouts for challenging residential footprints, improving client satisfaction through creative, space-saving design solutions.

Interior Design Intern (Freelance), Urban Interiors India / Dubai (Remote)

Jun 2025 - Dec 2025

- Developed precise Revit models for 15+ complex projects, streamlining collaborative workflow and structural documentation.
- Assisted in conceptualizing mood boards, material selections, and detailed 2D space planning for international residential and commercial spaces.
- Collaborated virtually with overseas design teams to ensure drafting precision and adherence to international design standards.

EDUCATION & CERTIFICATIONS

- Diploma in Architectural Design & 3D Visualization (Autodesk Revit), CADD Centre
- AI-Powered Smart Building Certificate, Professional Development
